

## **PROJECTS**

You will write ten short (1,000 – 1500 words) and one long (10,000 words) on the topics provided to you by your instructor in which you apply a critical paradigm from theorists or issues raised by the Study Guide questions. You should start your paper with a succinct thesis statement, describe the critical paradigm and the text(s) being analyzed. Be sure to cite critical passages to demonstrate support for your argument.
